DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Gary Edwards (Reg. No. 31,824) on June 13, 2006.

Regarding Claim 12, Please remove the semicolon at the end of the word "channel" in line 7 and insert into line 7 after the word "channel" – **by each of the base stations transmitting a synchronization signal to the remaining base stations within its transmission range, via said random access channel. --**

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

It is well established in the art, as revealed in the Examiner's search of the prior art, that a Random Access Channel (RACH) is conventionally used by the mobile station to establish synchronization with a base station. The mobile station transmits synchronization signals on the uplink via the RACH to the base station. The prior art of record, however, does not teach or show said RACH being used to establish synchronization between base stations. The prior art of record does not teach or show

the transmission of a synchronization signal from each of a plurality of base stations to remaining base stations via a RACH. The Wallace reference (US 6,590,881), as detailed in the Office Action dated November 3, 2005, teaches channels being used to enable synchronization signals to be transmitted between base stations but does not teach a RACH. A thorough search by the Examiner rendered prior art that teaches the conventional use of the RACH as set forth above. There is nothing in the Wallace references or the rendered prior art that would teach or suggest why a person of ordinary skill in the art would be motivated to act contrary to conventional usage, as asserted by the Applicants. The independent Claims 1 and 12 contain the above highlighted limitation and therefore said claims are allowable. Claims 2 – 3, 5, and 11 depend on Claim 1, Claims 6, 8, and 9 depend on Claim 5, Claim 7 depends on Claim 6, and Claim 10 depends on Claim 9 therefore examiner gives same reason as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
